

BONALDO

Lock

"I think the feeling of safety is something we seek everywhere. It is what distinguishes a welcoming and familiar setting, such as one's home, making it different from any other place," comments Alessandro Busana, designer of the Lock armchair. A furnishing element where the person takes the center stage, which develops around the user through a padded strip that folds onto itself in order to form a backrest.

The upholstery, in fabric, eco-leather or leather, is fully removable and is available in one-colour or two-colour (different for the front part of the seat and the backrest) versions. For the lower part of the armchair, in painted metal, one can opt for four thin legs or for an original swivel base. The Lock ego version with quilting is also available.
