

BONALDO

Lake

Designer: **Gino Carollo**

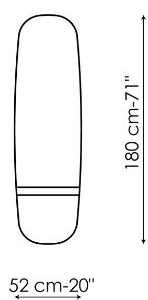

The concept behind the Lake family of wall mirrors is the result produced by the same finish on different materials, with different layers that visually create an object with a powerful decorative component. This mirror consists of three bands: the first one takes up the most space and consists of the

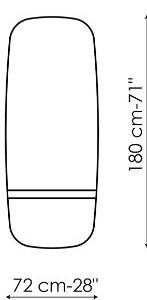

mirror; laid over it is a central band of metal (painted bronze or painted lead), while the lower band is of glass, in the same finish as the metal. The Lake collection consists of three mirrors, each characterised by a different shape and size.

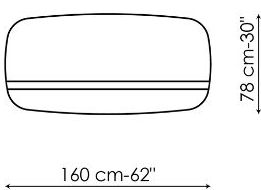

Data sheet

Lake 52
Width: 52cm
Depth: -cm
Height: 180cm

Lake 72
Width: 72cm
Depth: -cm
Height: 180cm

Lake 160
Width: 160cm
Depth: -cm
Height: 78cm
