

BONALDO

Colibrì chair

Designer: **Fabrice Berrux**

Perfect for the dining area, the Colibrì chair, available as a fabric dining room chair or in leather, renews the balance between the parts that distinguish it. The thin metal structure of the base highlights the welcoming volume of the seat/backrest: a large “shell” with raised edges and generous

proportions that offers “comfort without gravity”, giving body to the essential image from which the design by Fabrice Berrux emerges. The working of the padded surface highlights the detail of the parallel-stitched seams which run along the entire length of the upholstery.
